

# HIGHWAYS TO THE SKY: A CONTEXT AND HISTORY OF COLORADO'S HIGHWAY SYSTEM

## TABLE OF CONTENTS

<b>Chapter 1</b>	<b>Introduction and Project Description.....</b>	<b>1-1</b>
1.1	Historical Context.....	1-1
1.2	Purpose and Sponsorship.....	1-2
1.3	Methods and Procedures.....	1-3
1.4	Further Areas of Research.....	1-5
<b>Chapter 2</b>	<b>Setting.....</b>	<b>2-1</b>
2.1	Locations and Topographical Description Pertinent to Colorado's Highways.....	2-1
2.2	General History and Mining, Settlement and Political Organization.....	2-1
2.3	The Colorado Highway Commission and Succeeding Agencies.....	2-3
<b>Chapter 3</b>	<b>The Road Ahead: Early Trails in Colorado.....</b>	<b>3-1</b>
3.1	Native Trails: Pre-History to 1850s.....	3-1
3.2	Emigrant and Trade Routes.....	3-3
3.2.1	Santa Fe Trail.....	3-3
3.2.2	Cherokee Trail.....	3-4
3.2.3	Smoky Hill Trail.....	3-5
3.2.4	Overland Trail.....	3-5
3.2.5	Trapper's Trail.....	3-6
3.3	Military Roads and Federal Involvement.....	3-6
3.4	Mining-Related Roads.....	3-8
3.5	Railroads and the End of the Wagon Trail.....	3-11
<b>Chapter 4</b>	<b>Territorial and Pre-Automobile State Roads.....</b>	<b>4-1</b>
4.1	Kansas Territorial Road Improvements.....	4-1
4.2	Building Colorado's Roads, 1861-1876.....	4-1
4.3	Prisoners and Privateers: Road Construction, 1876-1900.....	4-2
<b>Chapter 5</b>	<b>The Automobile Age Begins, 1890-1930.....</b>	<b>5-1</b>
5.1	More Horses Under the Hood: The Early Years of the Automobile in the United States.....	5-1
5.2	The Automobile and the Good Roads Movement.....	5-2
5.3	The Romance of the Open Road: The Early Years of Automobile Touring.....	5-5
5.4	Who's Behind the Wheel: Early Motoring in Colorado.....	5-10
5.5	The Dawn of Auto Tourism in Colorado.....	5-13
5.5.1	The Colorado Automobile Club.....	5-15
5.5.2	Colorado's Private Auto Roads.....	5-16
5.5.3	Denver Mountain Parks.....	5-17
5.6	Highway Construction in Colorado, 1910-1920.....	5-20
5.7	The Federal Presence in Colorado and the 1916 Public Roads Act.....	5-24
5.8	High Altitude Highways: Mountain Road Building, 1920-1930.....	5-29

<b>Chapter 6</b>	<b>Good Things Out of Bad Times: Depression and World War II, 1930-1945.....</b>	<b>6-1</b>
6.1	Back to Work – PWA/WPA Building Roads in Colorado, 1933-1941.....	6-1
<b>Chapter 7</b>	<b>World War II and The Interstate ERA, 1945-1973.....</b>	<b>7-1</b>
7.1	Tourism All-Year Long.....	7-2
7.2	The Freeway Era Begins.....	7-4
7.3	Colorado Joins the Rest of the Nation – The Interstate System, 1956 to the Present.....	7-8
7.4	Interstates Cross Colorado.....	7-9
7.5	The Eisenhower Tunnel.....	7-13
<b>Chapter 8</b>	<b>Nowhere Left To Drive, 1973-2000.....</b>	<b>8-1</b>
8.1	Growth Demands Pavement: Colorado’s Economic and Population Boom.....	8-1
8.2	The Toll of Traffic.....	8-2
8.3	The Road Keeps Going – Highway Projects: 1973-2000.....	8-4
8.4	The Last Challenge: Glenwood Canyon, 1975-1992.....	8-4
<b>Chapter 9</b>	<b>Design, Context, and the Colorado Highway.....</b>	<b>9-1</b>
9.1	Wagon Road Construction.....	9-1
9.2	Early Auto Highways 1900-1930.....	9-2
9.3	New Deal/New Roads, 1930-1945.....	9-12
9.3.1	Blacktopping Colorado: Vail’s Vision in Asphalt.....	9-13
9.3.2	Guardrails and Safety.....	9-15
9.3.3	A Road Crew’s Work is Never Done: Highway Maintenance.....	9-16
9.4	General Highway Design Standards, 1945-2000.....	9-16
9.4.1	Post-War Safety Standards and Design.....	9-19
9.4.2	The Triumph of Design: I-70 Through Glenwood Canyon.....	9-21
<b>Chapter 10</b>	<b>Evaluation Criteria for Historic Highways.....</b>	<b>10-1</b>
10.1	Recognition of Historical Significance.....	10-1
10.2	Consideration of Integrity.....	10-4
10.3	Consideration of Age and Period of Significance.....	10-7
10.4	Other Considerations in Evaluation of Historic Highways.....	10-9
<b>Chapter 11</b>	<b>Historical Summaries of Ten Colorado Highways.....</b>	<b>11-1</b>
11.1	Historical Summary Of US 550 (5LP6654; 5MN6047; 5OR294; 5SA958).....	11-1
11.1.1	Eligibility of US 550.....	11-2
11.1.2	Site Survey Synopsis of US 550 – 129.25 miles from milepost 0.00 at the New Mexico border to milepost 129.25 at the Junction of US 50 and SH 90 in Montrose (surveyed February 8, 2002).....	11-8
11.2	Historical Summary of State Highway 112 (5AL; 5RN753; 5SH1963)....	11-11
11.2.1	Eligibility of SH 112.....	11-15
11.2.2	Synopsis of Site Survey SH112 – 27.90 miles from milepost 0.00 at the junction of US 160 in Del Norte to milepost 27.80 at the junction of CO 17 in Hooper (survey conducted January 29, 2002).....	11-15
11.3	Historical Summary of State Highway 141 (5DL2414; 5ME13044; 5MN6048; 5SM3670).....	11-18

11.3.1	Eligibility of SH 141.....	11-23
11.3.2	Synopsis of Site Survey of State Highway 141 – 161.99 miles from milepost 0.00 at the junction of US 666 to milepost 161.99 at the junction of I-70/US 6 west of Clifton (survey conducted February 7, 2002).....	11-23
11.4	Historical Summary of State Highway 74 (5JF2733).....	11-27
11.4.1	Eligibility of SH 74.....	11-32
11.4.2	Synopsis of Site Survey of SH 74 – 17.99 miles from milepost 0.000 at the Junction of I-70 Exit 252 Interchange to milepost 17.99 at Junction of SH 8 in Morrison (survey conducted February 13, 2002).....	11-33
11.5	Historical Summary of US Highway 6 from Brush to Sterling (5LO479.1; 5MR743.1; 5WN171.1).....	11-33
11.5.1	Eligibility of US 6.....	11-42
11.5.2	Synopsis of Site Survey of US 6 – approximately 35 miles from milepost 371.69 at the junction of Interstate 76/Spur US 34, Exit 92 interchange east of Brush to milepost 406.56 at the junction of I-76, Exit 125 interchange east of Sterling (survey conducted February 1, 2002).....	11-42
11.6	Historical Summary of US Highway 85 from Trinidad to Walsenburg (5HF1925.1; 5LA9132.2).....	11-47
11.6.1	Eligibility of US 85.....	11-51
11.6.2	Synopsis of Site Survey of US 85 – approximately 40 miles from milepost 13 in Trinidad to milepost 50 in Walsenburg (survey conducted January 29, 2002).....	11-51
11.7	Historical Summary of US Highway 385 from Springfield to Cheyenne Wells (5BA879.1; 5CH198.1; 5KW121.1; 5PW171.1).....	11-55
11.7.1	Eligibility of US 385.....	11-59
11.7.2	Synopsis of Site Survey of US 385 – approximately 95 miles from milepost 149.70 at junction US 40 in Cheyenne Wells to milepost 28.77 at junction US 160 in Springfield (survey conducted January 28, 2002).....	11-60
11.8	Historical Summary of State Highway 13 (5GF2949; 5MF5138; 5RM4486).....	11-62
11.8.1	Eligibility of SH 13.....	11-66
11.8.2	Synopsis of Site Survey of State Highway 13 – 127 miles from milepost 0.00. Junction of I-70 Exit 90 Interchange south of Rifle to milepost 127.90 at the Wyoming Border (survey conducted February 6, 2002).....	11-67
11.9	Historical Summary of I-70 From Vail Pass to Georgetown (5EA1826.1; 5CC1189.1; 5ST892.1).....	11-71
11.9.1	Eligibility of I-70.....	11-79
11.9.2	Synopsis of Site Survey of I-70 from Vail Pass to Georgetown (survey conducted February 13, 2002).....	11-79
11.10	Historical Summary of US 24 From Manitou Springs to Antero Junction (5EP5118.1; 5PS2004.1; 5TL301.1).....	11-80
11.10.1	Eligibility of US 24.....	11-86
11.10.2	US 24 – approximately 70 miles from milepost 226.55 east of junction US 285 at Antero Junction to milepost 297.08 at west junction of US 24 in	

	Manitou Springs (survey conducted January 31, 2002).....	11-87
11.11	Colfax Avenue Through Denver.....	11-94
<b>Chapter 12</b>	<b>References.....</b>	<b>12-1</b>

## PLATES

Plate 1: As industries like mining grew, road construction desperately tried to keep pace. In the 1890s, wagons hauled ore over the "new road" from the Last Chance Mine near Creede. Photo: W.W. Crooks. Source: Colorado Historical Society, CHS X4576.....	3-10
Plate 2: In 1914, construction along Colfax Avenue grew west from downtown.....	5-9

Plate 3: Bumper-to-bumper traffic held a different meaning on the streets of Denver at the turn of the 20 <sup>th</sup> century. These proud horseless carriage owners met at the corner of 18 <sup>th</sup> and Stout in front of the Colorado Winton Motor Carriage Company. Source: Denver Public Library, Western History Department. ©1995-2002 Denver Public Library.....	5-12
Plate 4: Tourism, the automobile, and Colorado were made for each other. In 1915, the Denver Motor Club issued this map urging motorists to see “The Switzerland of America.” Source: Rocky Mountain Philatelic Library.	5-14
Plate 5: On Colorado’s eastern plains, the automobile was a familiar sight by early 1920s. However, the ruts in the photo attest to how far the country had catch up with the state’s cities when it came to road construction. Postcard courtesy: Lyle Miller.....	5-28
Plate 6: Engineers Herbert Crocker and Alfred J. Ryan emphasized aesthetics when proposing the state’s first freeway (later known as the Valley Highway) in 1944. While modern Interstate 25 bears little resemblance to the illustration, Crocker and Ryan’s original design featured “dual roadways separated by a landscaped median strip and bordered by service roads.” (Crocker and Ryan, The Valley Highway: A North-South Limited Access Highway Through Denver, 1944: 63.....	7-6
Plate 7: Perhaps the greatest engineering accomplishment in state history, the Eisenhower Tunnel took 13 years and \$125 million to complete. Vital to the completion of Interstate 70 through the Continental Divide, the tunnel linked for the first time the eastern and western halves of Colorado. Source: Denver Public Library – Western History Department © 1995-2002 Denver Public Library.....	7-14
Plate 8: The federal government’s heightened role in building the nation’s highways demanded standardization of road signs and maps. The Rand McNally Map Company published this diagram a year after Colorado introduced its first road identification system in 1923. (1924 Rand McNally Roads of Colorado Map. Located in Denver Public Library, Western History Department.....	9-7
Plate 9: Northwest of Ouray Tunnel.....	11-6
Plate 10: Rockwork above Ouray Tunnel.....	11-6
Plate 11: Northeast view of Riverside Slide, a block and concrete tunnel.....	11-10
Plate 12: Dry-laid stone wall south of Ouray Tunnel on US 550.....	11-10
Plate 13: View south of SH 112 along the Saguache and Rio Grande County line.....	11-17
Plate 14: State Highway 141’s weathered asphalt between Gateway and Uravan.....	11-25
Plate 15: Eroded metal retaining wall above East Creek on SH 141.....	11-25
Plate 16: View west of wood retaining wall over wash on State Highway 141 in Mesa County.....	11-26
Plate 17: Spring shelter along Shady Lane – the old alignment of SH 74 near Idledale. Note the current alignment above the shelter.....	11-34
Plate 18: Timber curbing along bridge over Pawnee Creek, Logan County.	

View south, US 6.....	11-44
Plate 19: Close-up of asphalt on US 6.....	11-44
Plate 20: Raised culvert on north side of US 6 (c 1925). Culvert stands 2’8” high.....	11-45
Plate 21: Concrete culvert with grate. North of Merino on US 6.....	11-45
Plate 22: Asphalt mountable curbing inside guardrail on US 6.....	11-46
Plate 23: View east of curbing leading to drainpipe near South Platte River on US 6.....	11-46
Plate 24: Large chunks of aggregate on old US 85; approximately 500 feet west of I-25.....	11-53
Plate 25: Old asphalt gives way to concrete. Southwest view of US 85.....	11-53
Plate 26: Battered wooden reflector poles looking north, Huerfano County, US 85.....	11-54
Plate 27: West view of wooden culvert on old US 85, Las Animas County..	11-54
Plate 28: Steep embankments on both sides of US 385 southwest of Lamar near the local airport.....	11-61
Plate 29: Bituminous concrete on old alignment of SH 13 in Rifle.....	11-68
Plate 30: West view of concrete culvert beneath old alignment of SH 13...	11-68
Plate 31: Worn asphalt. State Highway 13 (Main Street) in Meeker.....	11-70
Plate 32: Corrugated metal culvert viewed from the west side of SH 13.....	11-70
Plate 33: Eastbound bore (named for Colorado Governor Edwin C. Johnson) of the Eisenhower Tunnel.....	11-75
Plate 34: Concrete culvert inside rock work. View from east side of US 24..	11-90
Plate 35: Cement rubble masonry wall along Fountain Creek on US 24.....	11-90
Plate 36: Cement and masonry wall from inside the guardrail above Fountain Creek.....	11-91
Plate 37: Stonework along Fountain Creek. View from eastside of US 24...	11-91
Plate 38: Curbing placed by PWA crews during the 1930s on US 24 west of Manitou Springs. Materials included a mixture of red rock and asphalt.....	11-93
<b>Appendix A: Chronology of Highway Development in Colorado.....</b>	a-I
<b>Appendix B: Annotated Bibliography.....</b>	a-v
<b>Appendix C: Compiled Information – Colorado Highway System....</b>	a-xxxiv
